COLLEGE LIBRARY ORDERS NEW BOOKS

To Present an Exhibit in Accordance With National Education Week

About 300 new books were ordered for the Murray State College library Thursday, October 22. The nature of the new books include technical ones for different departments as well as recent non-fiction and fiction. Among the new books are: "And So Victoria" by Vaughn Wilkins; "Seven who Died" by Protokos; "The Best of London" by Temple Bailey; and "Imperial City" by Elmer Rice.

Circulation has been enlarged during the past year. For '36-'37, there were 40,069 general books signed out to 38,311 that were signed out for the year '35-'36. This revealed almost a five per cent increase. Reserve books for '36-'37 were 27,856 to 25,951 for '35-'36, showing a gain of over ten per cent. This does not entirely cover the true increase in circulation as three times as many books as before were put on open shelves.

Students and faculty have not only increased a keener interest in reading but their taste has changed from fiction to non-fiction, it seems. Mr. Gibson, head of the library, said, "The class of books now being read is of a more serious nature than of the past—indicating that students of today are more seriously interested in today's problems than of the past."

During the week November 7-13, the library will present an exhibit in accordance with American Education Week. The exhibit will consist of posters and books, and it is expected that this exhibit will be one of the best ever presented in the library.

Democratic Candidates Make Clean Sweep of General Election Over County and State

**WOODFIN HUTSON
IS NEW DENTIST**

Young University of Louisville
Graduate to Begin Practice Tomorrow

Dr. Woodfin Hutson, a graduate of the University of Louisville College of Dentistry in June of this year, will open an office for dental practice in Murray tomorrow, according to an announcement made by him this morning.

Hutson, who is married, will make his and his wife's home in the city of Murray. He is the son of Prof. and Mrs. Woodfin Hutson, of Paducah, his father having taught in the high schools of Western Kentucky for the last quarter of a century, making many friends throughout this area.

Young Dr. Hutson was born in the corner of the Square and is equipped with the latest dental equipment. After graduation from the University of Louisville this spring he did post-graduate study in denture work under the nationally known dental expert, Dr. B. L. Keeney.

In college, Dr. Hutson was grand master of the Delta Sigma Delta, honorary social dental fraternity on the campus and was affiliated with several prominent campus organizations. He was graduated with honors. He declares that although he did his dental work at Western State College of Bowling Green, he still will cheer for the Thoroughbreds when they meet the Hilltoppers at Bowling Green November 2.

Dr. Hutson's office occupies a 5-room suite of rooms in the Purdom Building on the Southwest corner of Louisville this morning. He is equipped with the latest dental equipment.

Applications for Tenant Loans In County Increases

County Farm Security Administration offices are receiving numerous applications from tenant farmers for loans to purchase family sized farms under title I of the Bankhead-Jones farm tenant act, but county offices are not yet ready to accept formal applications for this type of loan, according to G. C. Dyer, county supervisor, in charge of the Rural Rehabilitation program of the FSA in Graves, Hickman, Calloway, and Fulton counties.

As allotments for tenant-land purchase loans in Kentucky, based on farm population and percentage of tenancy, are set at \$334,000, not more than 100 or 125 families in the state can be brought under the land purchase program this year, Dyer said. The act authorizes doubling of the allotment next year and further increasing it the third year if Congress appropriates funds, but for the present fiscal year land purchase funds are sufficient only to establish pattern.

State Art Head To Speak at MSC

The third Monday of each month was the date chosen for the regular meeting, and the biography of Chiang Kai-Shek, is the first book to be read.

The art appreciation group led by Mrs. Mary Ed McCoy, Hall meets the second Wednesday evening in each month in the art room at the training school.

BLALOCK, CROUCH, ADAMS ELECTED TO SCHOOL BOARD

Ethan Irvin is City Judge; Hazel Names Officers; Meredith is Attorney General

**COUNTY HAS LIGHT
VOTE THROUGHOUT**

Democratic candidates for public offices ran away with Tuesday's election over the state, and just as decisively within the voters' trend against the two proposed amendments to the constitution.

Calloway county saw every Democratic candidate elected by large majorities, and in the attorney general's race, Meredith, Democratic candidate, polled 3,100 votes in the county to 248 for Hawkins. Meredith was re-elected by an overwhelming majority.

Calloway voted against the proposed amendment to the constitution which would have authorized the General Assembly to reorganize government within the territorial confines of counties under powers and limitations therein set out 2,083 votes to 637; and it opposed Constitutional Amendment Number 20, which prescribed methods of amending the Constitution by a vote of 1,268 to 470.

In the race for Murray City Judge, Ethan Irvin, Democratic nominee, defeated Kit McQueen, Republican, by a vote of 420 to 249. George Hart, unopposed candidate for Mayor, received 490 votes.

Biggest interest of all election figures was manifested in the race for school board membership. There were six candidates in the election, it was believed, hinged the outcome of the candidates for the office of county superintendent.

The three persons elected to the board of education were Mrs. Essie Blalock, with 1,821 votes; Fleetwood B. Crouch, 1,754 votes; and B. Adams, 1,685 votes. The candidates in the race were Ted Howard, who received 1,242 votes; Hall McCuslin, 1,240 votes; and S. P. Killebrew, 1,167.

Although unopposed, the following Democratic candidates for the following offices received respectively the following vote:

C. A. Hale, representative, 3,312; John Clopton, county judge, 3,348; W. C. Overbey, county attorney, 3,314; Mary Russell Williams, county clerk, 3,308; J. J. Fox, sheriff, 3,292; C. C. Jones, jailer, 3,227; Dewey D. Crass, tax commissioner, 3,227; and Max Churchill, coroner, 3,208.

All candidates in the magistrate's races were unopposed. Their poll of votes in their respective districts is as follows: Charles E. Underwood, 1,066; Moody, district 2, 2,283; G. E. Rushing, district 3, 3,009; Potts, district 4, 2,292; Denham, district 5, 2,292; Underwood, district 7, 498.

The City of Hazel elected W. T. Doherty police judge over W. C. Underwood, 421 to 398.

The City of Hazel elected W. T. Doherty police judge over W. C. Underwood, 421 to 398.

Tuesday's election was one of the lightest polls in the history of Calloway county.

Election misdeemeanors throughout the state were few. In Harlan county, however, state militia placed the county under martial law as state troops arrested High Sheriff T. R. Middleton, three of his deputies, and 31 precinct officers in election day disturbances. At Frankfort, Colo. S. B. Olanier in ordering out the troops said he had received reports that "deputy sheriffs armed with rifles were taking charge of the election" in Harlan county.

At West Liberty, Constable Robert Whitte was reported killed and Elize Perry probably fatally wounded as the result of an argument Tuesday at a voting booth near the precinct of Whittier.

In New York City, Mayor Fiorelli LaGuardia, fiery Italian office holder, was re-elected as head of the metropolis by a large majority.

More Taxes Collected Far Than to Date in 1937

Calloway county had collected almost one-fifth of all taxes charged, up to the time the two per cent discount went off November 1, officials of the Sheriff's Office made known today. The total tax lists in the neighborhood of \$125,000, officials declared, and of these, \$26,500 have already been collected.

Persons may pay taxes up until March 1 without a penalty, but also without getting a vote of advantage of the two per cent discount credited to them up to November 1. After March 1, 1938, however, a 5 per cent penalty will be invoked, and an additional 6 per cent interest charged for all overdue taxes.

The year at this time only \$20,000 had been collected of the \$125,000 assessed funds.

Serving the Farmer

The Ledger & Times Calloway County's oldest and greatest newspaper, always has been and always will be a friend to the farmer and rural people. It has always striven to give them all the news and cover rural activities that is within our province to do so. It is our aim to point out all economic features, as well as news which will be of benefit to you, or a detriment to you.

Good news from the agricultural department in Washington was issued Tuesday when they reported that a government loan of \$600,000 to the farmers, delivery men, and all others who must find proper addresses in a hurry. This loan will be financed with \$85,000,000 which President Roosevelt has directed the Reconstruction Finance Corporation to make available to the Commodity Credit Corporation. With the large corn crop which has been grown this year this news should have a stabilizing influence on the price of corn. Artificial means of stabilizing markets may not be the best plan, but it is an expedient plan. President Roosevelt is doing all in his power to keep all classes of business running in a true course without fluctuation as much as possible. When business is on an even keel, business prospers, and we will not have periods of bad business and inflated property.

Roosevelt's humanitarian president, as working to satisfy the demands of the greatest majority of the people and not a few plutocrats on Wall Street.

JUST JOTS By John

Here's news for mothers whose children must wear glasses, and for those in dangerous occupations who must wear them. E. G. Lloyd of Beverly Hills, Calif., has developed a non-breakable eye glass lens known as "lens lens." Whether this type of lens will be proper for all types of eyes and will be recommended by eye doctors is another question. Time will tell.

The Young Business Men's Club appointed committees at their regular meeting Monday night to erect the Christmas decorations around the square right after Thanksgiving. This is a good thought as it

gets people into a proper spirit for the holidays. A good suggestion would be to string lights from each corner of the square to the top of the court house. Our Court House is located on a high point in the city and these lights, if erected, would be a beacon which would show for miles around, letting the people know that Murray was really celebrating Christmas.

Now that the nummies are being placed on the houses in the city it will be easy for us to tell guests of the city where everyone lives. They will be of great convenience to the postmen, delivery men, and all others who must find proper addresses in a hurry.

The annual Red Cross Membership drive will start next week on Armistice Day, November 11. Recalling what a lifesaver the Red Cross, abetted by citizens by and large, was during the flood last January, let us not forget to subscribe. Your money spent for a Red Cross Membership alleviates lots of suffering of people in time of need.

Those who will act as solicitors for donating their time, gratis. Let's speed up their work by being at home or your place of business when the committee calls. It will all them in their work, and will speed up the drive.

Let's go over our quota and put Murray and Calloway County in the top of the rank. All Red Cross funds are audited and under the supervision of the War Department.

The Boy Scout committee of the Young Business Men's Club, headed by Prof. Carman Graham, are investigating what it will cost to get San Brown Belts made of white canvas to equip a volunteer school patrol. They are planning on having them help direct traffic at times when school children are coming or leaving school. This is a very beneficial move and should meet with the approval of school authorities and parents alike. To make such a move efficient it must be sanctioned by the police department of the city, with school patrol having full authority to make such traffic stop it, if necessary, while the children are crossing the street. This will especially apply on West Main street, where traffic is heaviest and cars go the fastest.

Across the River

Haven't we had one beautiful week of October sunshine! Here it is an ideal Sunday for visiting—our favorite hobby—and the river between every relative and me, so the next best way of whiling away my time is to scribble to all you readers.

The last few days have slipped placidly away with nothing eventful happening around here. Men have been gathering corn, which in the bottoms promises to be reasonably good, but nearby a few farmers on the ridges say they can and intend to gather their meager crop in a ground slide.

Mrs. Doug Jones has been rather feeble recently, and was unable to attend Sunday School Sunday. If all were as faithful to their church as are Mr. and Mrs. Jones, our aged neighbors, there would be few empty benches summer or winter.

Mr. and Mrs. Berry Lassiter of near Tharpe are moving near Murray soon. Mrs. Vera Jones, their daughter, promises me that there will then be two ladies taking advantage of every opportunity to cross the river.

Mrs. Clyde and Mrs. Mable Spiceland accompanied their husbands to Murray Saturday. Mr. and Mrs. Linus Spiceland, Clyde and Geneva Spiceland, and Misses Martha Thomas and Ida Lorene Vincent attended the Tennessee Educational Association at Nashville last Friday, and right here's where I get a chance, since I'm no longer in the teaching profession, to speak my mind. So I certainly hope that by so doing, I don't bring the wrath of other teachers down on my poor defenseless head. Editor No. 6 can testify to the fact that it would be better to have "a mill stone hanged about his neck and that he be drowned in the depth of the sea," especially after last week's scolding. My! how I enjoyed that!

But truly, I never have been able to see what the majority of teachers were really benefitted enough by these big teachers' meetings to pay them for not staying over night and holding that! and the expense of going, especially if they live over a hundred miles from the place of meeting.

Of course there are always some inspirational talks and demonstrations. There were some great speakers at Nashville and I still feel that we missed something by not staying over night and holding that! and the expense of going, especially if they live over a hundred miles from the place of meeting.

Of course such meetings give teachers an opportunity to see other teachers and the outlook on the "style" of teaching. But the teacher is much flattered for having prepared for such an occasion and he or she goes back to the home tasks carrying nothing that is usable in the ordinary school. Now I'll run for shelter. Havens to Preach on "Stock Market Slump"

"The Stock Market Slump" will be the sermon of V. Havens, minister of the First Christian Church, at the Sunday night church service next Sunday. "Not in financial circles," Mr. Havens said in announcing the sermon, "but people in general are wondering 'What does the 25 billion dollar slump in the stock market mean?' Is it the forerunner of another terrible depression? I believe," Mr. Havens said, "that the church is concerned with what goes on in the stock market and that it should not hesitate to declare its position. I believe the church is not only interested in charity but also in preventing the need of charity and that it is in a position to point the way to national prosperity."

The special worship, "Words and Music," which received a tremendous acclamation by the large crowd present last Sunday night at the first presentation, has, by popular request, been made a regular feature of the Sunday night services. "Words and Music" will be presented at the beginning of service each Sunday night, which will be at 7:30. "A Prayer of Consolation" will be the sermon subject at the Sunday morning worship service, which will begin at 10:45.

The Sunday School will be held at 9:30 a. m. Superintendent George S. Hart.

The Christian Endeavor Society will meet at 6:30, Sunday evening, each in its own special room.

MRS. BLALOCK ISSUES CARD OF THANKS

It is impossible for me to find words to express my appreciation to my many friends in Calloway County for their loyal support in my race for member of the County Board of Education.

May God grant that the time never comes when you will be sorry you supported me.

To you who voted against me, and to the defeated candidates, I hold no ill will toward you. I hope to be able to serve you as efficiently as they who so loyally supported me. Sincerely,

(Mrs.) ESSIE BLALOCK.

Bureau of Economics Urges Farmers To Know Origin of Seeds They Sow

A caution to farmers to "know the origin of the alfalfa and red clover seed purchased this year" was issued today by the Bureau of Agricultural Economics.

The Bureau said "there is need for extreme caution because of the short supply of adapted seed of both alfalfa and red clover and the wide differentiation in price between unadapted and adapted seed."

It was stated that the carry-over of alfalfa seed was very small, that production in the Northern and Central States this year was much below average, but that production in the Southwest was above average.

The Bureau said that much unadapted southern alfalfa seed will probably be shipped to Northern states, some of it correctly represented as to origin, and some mis-represented. Because of the relatively low price of this unadapted seed, it was stated that many retailers, shippers, truckers and others will use every possible ruse to pass off southern alfalfa seed for northern seed. Though some southern-produced alfalfa seed may successfully go through mild winters in the Northern States, it was pointed out that the southern seed is not sufficiently hard to withstand the usual severe winter weather in most northern areas.

Farmers are advised that "alfalfa seed obtained from growers and shippers should be fully identified as to locality of production, and blends containing any portion of unadapted seed should be avoided so far as possible."

It was pointed out that public agencies provide information regarding the origin of seeds in two ways. Many states certify seed, and their certificates show the variety and locality where grown as well as other information. The Bureau of Agricultural Economics maintains a list of certified origin seed service under which verified origin labels are attached to seed containers which indicate in what state the seed was grown. Seed verified as to origin by the Bureau are not verified as to variety or germination, but the verification sets up certain minimum standards of quality covering such factors as germination, purity, and noxious-weed content.

As for red-clover seed, the carry-over is "very small," production is well below the less-than-average production of last year, prices of alfalfa seed are high, imported seed is much lower price, and the supply of adapted domestic seed is insufficient to meet normal requirements, the Bureau reported.

State extension services, county agricultural agents, State and county farm organizations, seed shippers and dealers, and all agencies engaged in seed certification or verification work are urged by the Bureau to cooperate with the Department of Agriculture in discouraging the use of unadapted seed. As with alfalfa, careful handling of the whole problem is necessary, the Bureau said.

COUNTY AGENT NOTES

In the Extension Program of Work for 1937, the goal was to have all tobacco land in the county seeded to a cover crop this fall. A large number of farmers have already seeded tobacco fields and reports are coming into the County Agent's office that more tobacco land is being covered for winter this year than ever before. But still there are a few farmers who have a tobacco patch that has nothing for a cover except the frost bitten suckers, which, of course, are of no more value as a cover since they are dead.

There is still time to seed wheat or rye on these patches and that may or may not be cut for grain and still very successfully be used for early spring pasture. A good comparison of losses one experiences when tobacco land or any other cultivated land for that matter, is left idle all the winter would be to buy a sack of fertilizer for example nitrogen of soda which is readily water soluble in the same that the nitrates of the soil are water soluble, and place the bag of fertilizer out in the rain and let it rain on it all winter without any cover. One would know in the spring that there was no nitrogen in the residue of the fertilizer. Likewise, many elements of the soil will be lost in the same manner. Let's use cover crops as a protection for the soil.

Final Compliance. Final compliance on the Agricultural Conservation Program will begin Thursday of this week. All seedlings, applications of lime and phosphate and other soil building practices done since the supervisor checked the farm must be reported to the supervisor on this final compliance drive. Please arrange to meet the supervisor and spend a very few minutes with him that we may complete this work readily and hasten the coming of the checks to the county. This work should not last longer than six or seven days.

The farmers of Calloway have used 10605 tons of lime since the first of October.

Four farms were terraced during the month of October by the Farm Bureau, terracing equipment.

Forty-four hundred and ninety bags of triple superphosphate were used by the farmers of Calloway county in earning their soil building allowance for 1937.

STEWARTMEN TRAMPLE UNION AT DYERSBURG FRIDAY 21-0

Racehorses Show Speed and Marvelous Power in Victory

The Thoroughbreds of Murray State College won their fifth successive victory and their fourth without defeat in the SIAA Friday night when they trampled the Bulldogs of Union University in the grass of the municipal stadium at Dyersburg 21-0.

Despite excessive penalties for illegal shifts, holding, and offside that totaled 115 yards, the Murray team O' War plowed through Union's defense for 351 yards from scrimmage and 16 first downs, while holding the Unionmen to 31 yards from scrimmage and 4 first downs. The Union line rarely stopped the plays of the Stewartmen short of a first down, when freedom from penalties was long enough for them to execute four plays.

The victory put the Bluebloods in the top rank in the Southern Intercollegiate Athletic Association.

Gudauskas kicked off to Union, who failed to advance the ball on time plays and resorted to a punt. On successive first downs displaying tremendous power, the Thoroughbreds crashed over with Mitchell carrying the ball for the first touchdown in three minutes. Gudauskas kicked the extra point, and the score was 7-0. The touchdown drive began on Murray's 18-yard line.

Union advanced the ball to Murray's 25 on a pass and six-end run, before the Racers stopped them. An illegal shift penalty put the ball on Murray's 10, and on the next play another penalty placed the spikeroil on the Stewartmen's 1-yard mark. Yarbrough kicked out to safety, a lightning-swift kick that almost was blocked, and the Thoroughbreds stopped Tennessee short of a first down on their own 15. They took the ball, and a penalty for clipping on the first play shoved them back on their heels to the 1-yard stripe again where Thompson's quick fumble put the ball back into the quarter-field zone.

On the Tennessee's forced punt, Murray began a march that carried the ball deep into Tennessee territory, but a 13-yard penalty on

Murray College Frosh Are Victors Over Western Juniors Last Week 6-0

PARIS, TENN., November 2.—The University of Tennessee Jr. Vols will clash with the Frosh of Murray State College at 8 p. m. next Friday night, November 3, on Barton Field in Paris. This is to be the first college football game ever to be played in Paris. The town is wild with enthusiasm and preparations are being made for the largest crowd ever to witness such a game in this section.

With 10 yards to go for a first down late in the fourth quarter, Murray was penalized 15 yards for an illegal shift. In two plays Jasper gained 32 yards and a first down, and running and passing plays by Jasper, Finley, and Beale placed the ball on Union's 5-yard zone with a first down. But a Murray fumble and hard tackling by Union eased the threat.

Murray's attack was led by Mitchell, Jasper, and Yarbrough, with Hardin standing out on the defense. Union's outstanding player was Mansfield, tackle, who was in practically all of the Tennessee's defensive plays.

Yarbrough, star Murray back, re-hurt an old ankle injury, and may be unable to play the remainder of the season.

Pilot Oak Tops Lynn Grove Quintet, 27-21

In an unusually well played early season game, the Pilot Oak quintet put on a late period rally to top the Lynn Grove Wildcats 27-21 on the Calloway county hard-wood Friday night before a packed house.

The tilt was a nip-and-tuck affair with the lead constantly changing hands which kept the spectators highly entertained. Down late in the final quarter the count stood 17-17 when a desperate rally by Pilot Oak carried the visitors out in front and they were never behind for the remaining few minutes of play.

Parks, veteran forward for the Cats, led the scoring for the evening with 12 points, but was closely followed by Finley and Wray of Pilot Oak who scored 10 and 8 tallies, respectively.

The lineups follow:
Lynn Grove Pos. Pilot Oak
Handline 4 F Wray 8
Parks, 12 F Finley 10
Kelly, C C Olive 3
Sulter, G Vincent 6
Waldrop, 2 G Finley 10
Substitutions: Lynn Grove, Williams 1; Cochran 2; Pilot Oak, Cavander.

Referee: Burdette, Murray State College.
Coach Buren Jeffrey announced that he has scheduled no game for the Wildcats for this week, but that on Friday night, November 12, the fast Redland outfit from McCracken county would appear on the Lynn Grove floor. Last year these two teams split a double-header and again, the two quintets should put on a fast exhibition for the spectators.

Exposed Tobacco Stalks Lose Much Fertilizer Value

Tobacco stalks thrown out into the weather when stripping is done lose much of their fertilizer value, since the nitrogen and potassium in them are partly soluble in water.

The Kentucky College of Agriculture says that a ton of stalks from Burley tobacco contains about 60 pounds of nitrogen and 65 pounds of potash, and a ton of stalks from dark tobacco about 70 pounds of nitrogen and 80 pounds of potash. At 15 cents a pound for nitrogen and 5 cents a pound for potash, a ton of Burley stalks is worth \$14.25 and a ton of dark tobacco stalks \$14.50, when used as fertilizer.

If stalks cannot be kept inside, they should be scattered on the land as soon as possible after stripping. If they can be sheltered from the rain, it is better to hold them until early spring. It is not advisable to use stalks, stems or leaf as a fertilizer for tobacco because of the danger of transmitting disease.

Beware Coughs That Hang On

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm. Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—no two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

North Lynn Grove

Hello every one! As I failed to write for the Ledger & Times last week, I will try to appear this week. I read all your interesting letters and enjoyed them so much.

Come on, Happy Jack! I am reading your letters and note improvement each week.

We are very proud of the report that Lynn Grove School gave last week. We were glad to read those receiving prizes at the County Fair and was glad to note that little Isaac Dowdy was on the honor roll. He has recently recovered from an appendicitis operation.

Come on, Charles Pogue and Mildred Rodgers, I am reading after you and I haven't failed to see your names listed on the honor roll so far.

Mrs. Audie Tidwell has been ill with a severe sore throat. We have been having some very nice weather and we hope it continues so.

Some who have been gathering corn in this section report corn crops are heavy this year. J. C. Paschall has taken advantage of this nice weather and reports that he has his winter's wood all ready for the bad days with the assistance of Cratie Paschall.

Wheat crops are looking prospects in this community. The Rodgers of North Lynn Grove are all out of luck. They found since gathering corn last week that their corn cobs are too small.

Mr. and Mrs. Joel Crawford are the proud parents of a baby girl.

Mr. and Mrs. Howard White and children, James Earl, and Junior, visited Mr. and Mrs. Lube Cooper and another, Mrs. Lillie Hanline over the weekend.

Golden Lock, I am planning to pay Mrs. Anna Jones, Mrs. Bell Enoch and "Aunt Etta" an all day visit next week and enjoy the day eating apples and pecans.

They have five trees of pecans. Yes, I knew you would like to be with me, but that will be O. K. I will just try to eat enough for both of us.

We are glad to know Mrs. Lillie Hanline is doing nicely. She visited Mrs. Audie Tidwell and Mrs. Gracie White Saturday evening. Hope everyone will be rid of their bad colds soon for they surely are bad company—Old Maid.

Stella Gossip

Mr. and Mrs. Vernon Nanny, Miss Mary Frances Bazzell of Farmington, Mr. and Mrs. Joel F. Cochran and Esther Mr. and Mrs. Bonnie Mills and Richard of Coldwater "bunch" attended church at Union Grove Sunday and took dinner at Con's and Naomi's, and I don't mean maybe!

Fiddlers contest at Coldwater, was superb and good order was had, even tho the school building was packed to its utmost capacity. Prof. "Bex" certainly knows how to manage with the help of the "loud speaker". Uncle Billy Adams, his son, Hardy, and grandson really do play the fiddle believe me. Do they get prizes? Yes! A Carter boy played the French harp and 4 girls played and "tap-danced" gracefully. "Ole Eagle" played 19 2 violin solos and received a money prize, donated by Dr. Adams. Now "Eagle" is too big for his hat and britches. Cleve Lawrence will preach at Coldwater Baptist Church Sunday at 10:45 a. m. and Ernest Rosch will deliver the sermon at Goheen Methodist Church at the same hour, last appointment until after Conference.

While gathering corn, Clarence Morgan and Ralph found a 35-pound ripe watermelon in river bottom above the old iron bridge. Plants his footstep on the sea, and rides upon the storm!

I accidentally came upon John Tyler in Murray whom I had not seen in 35 years. When he was a young fellow he worked for my father for \$6.00 a month. Later on he worked for John Zee for 2 gallons of sorghum a day and then

JOE E. BROWN RATES AS FILMS LEADING FUNSTER

When theatre-owners throughout the United States rate an actor as the foremost comedian on the screen, and the fifth ranking box-office favorite in the country today, he must be pretty good.

This is the listing given Joe E. Brown, cavern-mouthed funster, as the result of a poll of exhibitors all over the nation that established him as far and away the most popular mirth-maker in pictures.

Brown's reputation for comedy is due for enhancement with his newest offering, "Fit For a King," which is said to be the funniest vehicle of his side-splitting career.

Joe plays the part of worker around a newspaper office who believes himself a great reporter. He works for relatives and in order to get him out of the way they send him on a wild goose chase to a foreign kingdom on the trail of a big story.

Helen Mack plays a princess role and Paul Kelly a rival newspaper man in the film, directed by Edward Sedgwick and produced by David L. Loew for RKO Radio Release.

"Fit For a King" opens Sunday at the Capitol Theatre.

Pine Bluff News

Hello every body! This is Blue Monday and looks like it might rain again.

A large crowd attended the pie supper at Pleasant Valley School Saturday night.

Miss Lowell Willoughby spent Saturday night with Miss Nerene Fielder.

Mr. and Mrs. Edmon Kimbro are planning to move to Murray this week.

Mrs. Rose Johnson is right sick at this writing. But we hope she will soon be better.

I enjoy reading all the letters in the Ledger & Times.

Hello there, Chatterbox! Why didn't you come to the pie supper at old Pleasant Valley?

Several from around Pine Bluff have gone to Detroit, Mich., to look for work.

Well as this is my first time to write I will not tarry very long. If this skips the waste basket I will write again some time.

Logan Urges Free Flood Work Funds

Senator Logan of Kentucky in Washington Saturday suggested that Army engineers be given complete freedom to administer the \$24,000,000 Lower Ohio Valley flood control program.

"When Congress adjourned, I was well confident the work would be well launched by this time," Logan said. "It is apparent progress has been hampered by Works Progress Administration regulations."

The money allotted was to be spent under supervision of the WPA, which has ruled that only 3 per cent may be expended for materials, the remainder to hire relief labor.

"Congress should take some action to remove restrictions on the money," Logan said. "I would back a proposal to permit the engineers to spend the money as they think best."

He declared he was highly in favor of President Roosevelt's proposal for seven regional planning agencies to launch a long-time flood control and conservation program.

The money allotted was to be spent under supervision of the WPA, which has ruled that only 3 per cent may be expended for materials, the remainder to hire relief labor.

He declared he was highly in favor of President Roosevelt's proposal for seven regional planning agencies to launch a long-time flood control and conservation program.

RALPH'S RANGLES

Ty Holland's Murray High Tigers fought a hard losing game last Thursday night with the Fulton High Bulldogs who pushed over a lone tally to tip the Bengals by the score of 6-0.

Holland's men fought bitterly during the entire contest but were unable to cross Fulton's goal line on several occasions when the goal line loomed up close in pay dirt territory.

Although severely handicapped by injuries, the Tigers, man to man, displayed a fighting spirit that took a portion of the sting out of the defeat and Murray fans were well pleased with the stubborn, and game fight made by the local gridgers.

Down at Dyersburg last Friday night, where the Murray Thoroughbreds and the Union University classic exhibition, I was all set and contented when Murray took the "flip" and chose to kick to the Unionites and after the first five minutes it was a "cut and dried" affair with Murray out in front in every phase of the game.

Backed up on their own goal line—scarcely anything—so the Stewart-Moore aggression and they were just as cool there as if they had been in mid-field with first and 10 to go.

For the first time in a season or

so I am "plumb" pleased with the "brain work" of the Thoroughbreds. By that I mean "Jug" Mitchell, signal caller, and Cochran, captain, have the complete confidence of the team and appreciate their wisdom and knowledge in leading them in a sound, clear-thinking way that produces victories.

"Jug" Mitchell knows football and picks his plays well. I like his way of sizing up his opponents just before going into huddle for signals. He steps back from the huddle and with keen eyes sweeps his enemy's line of defense and picks out a flaw here and there, snaps out his choice and the team at once pounds away at that certain seemingly weak spot. And, then—boom—Jug is a miniature model of "Bull" Wells—and that's saying a lot whether one thinks so or not, especially to those who never saw Wells play. Although "Bull" was a past master at line plunging, he could also be called a triple threat, for on occasions he could chase out around end, punt, drop-kick, place-kick, and then drop back and pass with the speed of a bullet—but that doesn't take any glory away from Mitchell—the "Jug" that won't be "stop-pered."

But in this 1937 edition of Murray Thoroughbreds you can't single out one man, two men, or three men and say they are "it" that win our ball games. No, a thousand times no!

In the Union-Murray tilt I was puzzled and anxious to find out just who's team Gudauskas was playing on and too I thought he was a linesman but to and behold he played all evening in the Union backfield, or so it seemed as he rammed through to break up the Tennessee's plays. In fact, you could go down the line and make all the boys blush to the roots of their hair and yet not say enough about them.

We are having the privilege of watching a great machine with every cog turning in its own added precision and power to turn out one of the best football teams ever seen on the Murray grid.

With Memphis Morehead, Western and Superior yet on deck we have gobs of good football to see and appreciate with no "set ups" to mention. I know nothing of Superior but it is recorded that Memphis is better than in the past. Morehead is at her peak and Western is still among the best.

I have been watching football for more than 20 years and have with keen desire noted this team and that and this year especially I have—for my own benefit—kept my eyes on Western and I say in all sincerity that Western has a great and powerful outfit. They have power to spare, they have exceptionally fast backs and are strong in the passing and punting game. But in my most humble and meek manner I make this statement: If Murray State's line, from tackle to tackle, can handle Western's line, tackle to tackle, we will take them by the close score. Now I will be open to this question: "Why from tackle to tackle?" All right, here's my answer: "When we met the best in the passing game, in the Middle Tennessee game we met it as good a pair of ends as there is in the K-I-A-C and probably the S-I-A-A, and Middle Tennessee, Ouchita, and Union had at least one or more high rating backs. It seems to me that the Thoroughbreds took care of the ends and the backs, the latter, in both running and passing attacks, but now when we meet Western we will see the largest and most powerful line of the season with power as its greatest asset and to win from this bunch the Murray line from tackle to tackle will carry the load.

Baptists Enjoy Splendid Meeting At Fulton Friday

Ralph Churchill, Murray Student Baptist Secretary, was elected president of the Baptist Training Union which convened at Fulton Thursday and Friday of last week for its annual meeting. He succeeds his brother, Ronald W. Churchill, who has been president of the group for the last three years.

The conference, known as the Southwestern—Regional Baptist Training Union, is comprised of the following four Baptist Associations in Western Kentucky: West Union, West Kentucky, Graves County, and Blount River, the latter of which Baptist churches in this area are members.

Two hundred and fifty-one persons registered at the convention this year for an increase of 103 persons over last year's enrollment. Last year's conference met at Mayfield.

The many persons who went from here reported a most interesting meeting.

Murray People Are Injured When Vehicles Collide

Mrs. Ray Alexander was critically injured and Mrs. W. T. Downs Jr. was considerably bruised and shaken up when the car in which they were riding with their husbands Sunday afternoon, was wrecked when it collided with a V-8 roadster driven by Lester Brandt, who gave his address as Williamsport, Ohio.

Both Brandt and a companion were shaken up and their car was a total wreck. They returned to Ohio by bus. Neither Mr. Alexander nor Mr. Downs were severely injured.

The accident occurred when the car driven by Downs rolled off the gravel road from Pine Bluff onto the Murray-Egner's Ferry highway near Purdon's store. Hospital officials Monday described Mrs. Alexander's condition as grave.

Professor Garton, graduate of Indiana University, Bloomington, is Murray's new teacher in the music department. He has both bachelor and master degrees in music, and having taught one year in East Chicago, Ind., is well qualified for his position at Murray State College.

Professor Garton is talented in most branches of music, but his chief interest is in major composition.

Transcendent Flight

There were no trees. A stellar plain led down

To vast wide shores where seas of rippling white

And lucid mountains climbed the cloud-hung sky

And stood in dream-born mist before the South.

As if to guard the treasure fields of God

And wrap them in the hyacinth mist of dawn.

And on the breeze where swam the songs of peace,

In halcyon beauty swooped the grace-winged dove;

Through rain-washed twilight crept the waxing moon.

And night grew pale and pulsed in lulling flow

To restful ease behind the storm-swept past.

Mrs. R. M. Vance Falls From Auto

Mrs. R. M. Vance, Hazel, seriously injured herself Saturday morning when she fell from a moving car between Murray and Hazel.

Mrs. Vance bent forward to raise the car window and grasped the lever opening the door rather than the window. The door flew open, and Mrs. Vance fell outside.

The car was moving at a speed of about 40 miles per hour. At a hospital to which she was carried immediately, it was discovered Mrs. Vance had sustained a broken arm, lacerations and bruises over her entire body, and a badly bruised head which at first was feared to be fractured.

Mrs. Vance now is improving rapidly, and it is hoped she will soon be able to go about her duties.

The purpose of the Kentucky Unemployment Compensation Act is to build up reserves for the payment of weekly cash benefits to eligible unemployed workers, to stabilize employment and to stabilize business by maintaining the purchasing power of the worker.

I am indeed glad to say hello to everybody and I know you will be glad to read my letter this week and find out that Ky. Bell is improving fast now. She made a trip to the cotton field Saturday and also visited the Johnnie Mooney home Sunday morning to view the remains of Arthur Michaux.

Miss Eva Mae Williams, Miss Frances Parker, Miss Pernie Mae Simmons, and Miss Velda Mae Hutton were Wednesday night guests in the home of their school teacher, Mr. Lovins, and Mrs. Lovins. They reported a nice time. Mrs. Ada Weatherspoon of Fulton is spending a few days with her daughter, Mrs. Elmus Mitchell of Macedonia.

The Angel of Death has once more unfolded its snowy white wings and borne a message to one of the happiest homes that God in his kind providence has ever permitted to be planted, when on Saturday morning, October 30, Arthur Michaux heard the words "Well done" and fell asleep where night will never come again. The deceased would have been 43 years of age November 1. Surviving are his widow and one son Billy Max, five years old. Mr. Michaux was a fine neighbor and friend to everyone that knew him and he will be sadly missed by all who knew him. Johnnie Simmons was in Murray Thursday on business.

"Aunt Cindy" your letter was fine last week. "Uncle Bud" Todd has 11 persons in his cotton field this week. "Aunt Lou" Housden, 90 years of age, led all of them in the amount of cotton picked. She picked 393 pounds! Can any one beat that at her age. Berline picked from 30 to 40 pounds a day. Someone hide that little knife so Berline can pick cotton.

Mrs. Guy Lovins was a business visitor in Murray Tuesday. "Aunt Sis" McClure is very feeble at this writing. Mrs. Kittie Simmons is improving nicely.

Remember the week days to keep them holy. Remember God made them for me and you. To use for His glory and for His praise. In the things we say and do.

Remember the week days to keep them holy. Remember He made them too. Remember Him in working and playing. And we will be blessed in whatever we do. —Ky. Bell.
